ABOUT SUMO

Our Sustainable Management and Operations Program (SuMO) is a part-time program that offers you the unique opportunity to flexibly and efficiently acquire the conceptual foundations of sustainable management and to learn how to effectively transfer knowledge to create a real impact. SuMO integrates state-of-the-art scientific expertise with a holistic and interconnected perspective on sustainability. Our cutting-edge blended learning format makes best use of your time. We effectively align innovative online learning modules with highly interactive on-campus sessions at KLU in Hamburg. Interactive class discussions and teamwork allow you to transfer basic business concepts to applications in the field of sustainability. The SuMO 'Impact project' exposes you to the substantive challenges associated with sustainability and offers you an immersive, holistic, and real-life learning experience. Through SuMO, you acquire the necessary skills for a career in sustainable management and operations and learn how to effectively tackle grand challenges.
