OUR GOAL: AWARD 10 SELECTED STUDENTS WITH THE DEUTSCHLANDSTIPENDIUM IN CELEBRATION OF KLU’S 10TH ANNIVERSARY

In order for us to achieve this goal, we intend to collect a total of 18,000 € in private donations by the beginning of September 2020, which will then automatically be doubled by the federal government. This will allow us to provide ten KLU students who are either particularly talented or committed and possibly in need of financial assistance with a one-year Deutschlandstipendium worth 3,600 € (1,800 € private funds plus 1,800 € public funds).

Please make a donation of any amount to help us achieve this goal!

- Make a difference by supporting young people and have a direct and effective impact on their lives during their studies at KLU. Every donated euro will be used 1:1 for a Deutschlandstipendium.
- Access our donation page until August 31, 2020 to send an amount of your choice easily, quickly, and securely: www.the-klu.org/deutschlandstipendium
- The KLU Studienstiftung will receive all donations and bundle the incoming funds into ten Deutschlandstipendien. These will then be awarded to ten KLU students for one year starting in the fall of 2020. These students will be pre-selected according to qualitative and social criteria.
- Your donation is fully tax deductible. Donations made through our donation page will be provided with a receipt from the KLU Studienstiftung upon request which can be presented to the tax office.
- Donors committing to 1,000 € or more will receive special recognition by having their names displayed on our donor wall in the foyer at KLU.

"I am very grateful for the recognition of my achievements to date which were made possible by the Germany Scholarship, sponsored by the shipping company, Hamburg Süd. On the one hand, the financial support enabled me to concentrate more on my bachelor’s degree at KLU, as I was able to spend more time and focus more intensively on the learning content. In addition, I also used the support to further my professional training outside the university. I was able to take online courses in machine learning, which helped me a lot both professionally and academically. Therefore, I can only encourage you to make a donation, no matter how much, to give further students the chance of receiving this support."

Tim Bündert, Bachelor in Business Administration scholarship holder, Deutschlandstipendium
